## Photographing Your Family: And All the Kids and Friends and Animals Who Wander Through Too (National Geographic Photography Field Guides) John Healey

At certain moments—on a trip, on a holiday, or during those first weeks of parenthood, for example—have you ever wished you were a National Geographic photographer? In this unique guide, staff photographer Joel Sartore takes the mystery out of making extraordinary pictures of kids with a hilarious tour through his own family albums. Sartore's photographs delight and inspire, from the first moments a newborn enters the house to Halloween parades, from visits with family and friends to fireworks on the Fourth of July. Easy-to-follow tips and instructions make the creative process simple, helping parents approach photography in a whole new way. Digital photographers will appreciate tips on editing techniques, album innovations, archiving methods, and printing. Sartore's charisma and humor make learning a pure delight.

Unlike competitive titles, *Photographing Your Family* is lavishly illustrated to show the many ways to make pictures, how Sartore captured these images specifically, and the philosophies a world-class photographer brings to his work at home—with emphasis on the contributions that relatives, friends, and pets can make to the story that is family.

Early childhood is a fleeting time that parents and grandparents go to great lengths to capture in photos. This book will appeal to a vast audience: families who want to create memorable albums, parents with new babies, and everyone who wants to give a truly unique and useful family gift.
