Space Wars: Worlds & Weapons Steven Eisler

Space Wars, Worlds and Weapons is a dramatic and exciting account of the conflicts which engulfed the Galactic worlds during the first five millennia on the cosmic calendar. Stunningly illustrated are the machines, the spacecraft and the weaponry used by the Empires of the first three Federations during the Zone Wars. Blueprints and technical specifications of some of the enormous battlecruisers, transporters and artificial worlds are published for the first time. The ingeniously researched text, taken from the records of contemporary journalists and authors, traces the history of these fierce fighting years.
