The Buried Past presents the most significant archaeological discoveries made in one of America's most historic cities. Based on more than thirty years of intensive archaeological investigations in the greater Philadelphia area, this study contains the first record of many nationally important sites linking archaeological evidence to historical documentation, including Interdependence and Valley Forge National Historical Parks. It provides an archaeological tour through the houses and life-ways of both the great figures and the common people. It reveals how people dined, what vessels and dishes they used, and what their trinkets (and secret sins) were.
