## **Intervention Planning for Children with Communication Disorders: A Guide for Clinical Practicum and Professional Practice (2nd Edition)** Harriet B. Klein, Nelson Moses

At last, a book for practicum! This book explores the problem-solving and decision-making process involved in clinical intervention planning across categories of children's communication disorders. The authors show how to conceptualize an overall intervention plan before addressing the client's first session. The chapters are conveniently organized according to three phases: long-term, short-term, and session. Goal writing and procedure planning evolve across the three phases. Includes case studies of four children with different types of speech/language disorders: language, phonology, fluency and voice. Anyone who practices or is interested in speech-language pathology.
