Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) J.R. Raol, G. Girija, J. Singh

Modeling and Systems Parameter Estimation for Dynamic Systems presents a detailed examination of the estimation techniques and modeling problems. The theory is furnished with several illustrations and computer programs to promote better understanding of system modeling and parameter estimation. The material is presented in a way that makes for easy reading and enables the user to implement and execute the programs himself to gain first hand experience of the estimation process.
