The Divine Spark: Psychedelics, Consciousness and the Birth of Civilization

The Divine Spark: Psychedelics, Consciousness and the Birth of Civilization

"I suspect the real breakthroughs in our understanding of consciousness are going to come from an entirely different direction. That direction, controversially, has to do with psychedelics - which, as many of the contributors to The Divine Spark argue, offer spectacular potential for the investigation of the "hard problem" of consciousness." (Graham Hancock, from the Introduction). In The Divine Spark, bestselling author Graham Hancock brings us a ground breaking collection of the latest thinking on consciousness and psychedelics. Graham has been writing and speaking about this to audiences worldwide, including a controversial TedX talk on ayahuasca and DMT, which received well over a million views on YouTube. Combining the wisdom of leading minds, The Divine Spark illuminates the topic like never before, with a particular focus on the use of psychedelics to open up the realm of the supernatural. The book unveils fresh theories on the relation of psychedelics to domains such as creativity, the survival of life on planet earth, interspecies communication, medicine and drug research, and many more. Contributors include: Mike Alvernia, Russell Brand, David Jay Brown, Paul Devereux, Rick Doblin, Nassim Hamein, Martina Hoffman, Don Lattin, Eduardo Luna, Dennis McKenna, Thad McKraken, Rak Razam, Gabriel Roberts, Thomas B. Roberts, Robert Schoch, Mark Seelig, Rick Strassman and Robert Tindall.
