Painless Research Projects (Painless Series) Rebecca S. Elliott Ph.D., James Elliott M.A.

Even very good students think that doing a research project is an excruciating task. They might know their subject well, but they find it easier to go out and dig ditches than to gather facts and organize them into a research paper or project. Rebecca Elliott, the author of Barron's just published Painless Grammar, and her husband James have written a new book to help middle school students turn research into a painless--even enjoyable--process. Their formula is pure common sense. They begin with advice on choosing a topic, then guide students through the thickets of library research, interviewing experts for information, using the Internet, making notes, writing a rough draft, and producing a finished research report. They take students step-by-step through a sample research paper and end with tips on compiling a bibliography. Also featured is an Internet address book with 56 informative websites. Their delightful, user-friendly approach demonstrates that doing a research project really isn't such a burdensome task after all!

From reader reviews:

John Sanchez:

What do you in relation to book? It is not important to you? Or just adding material when you need something to explain what yours problem? How about your spare time? Or are you busy particular person? If you don't have spare time to complete others business, it is make one feel bored faster. And you have time? What did you do? All people has many questions above. They should answer that question since just their can do this. It said that about guide. Book is familiar on every person. Yes, it is proper. Because start from on kindergarten until university need this Painless Research Projects (Painless Series) to read.

Edward Salls:

Reading a reserve tends to be new life style on this era globalization. With examining you can get a lot of information that may give you benefit in your life. Using book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or perhaps their experience. Not only the story that share in the books. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on this planet always try to improve their skill in writing, they also doing some investigation before they write to the book. One of them is this Painless Research Projects (Painless Series).

Douglas Stevens:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get great deal of stress from both day to day life and work. So , when we ask do people have free time, we will say absolutely yes. People is human not just a robot. Then we ask again, what kind of activity have you got when the spare time coming to anyone of course your answer may unlimited right. Then do you try this one, reading books. It can be your alternative with spending your spare time, the book you have read will be Painless Research Projects (Painless Series).

Duane Harden:

As we know that book is significant thing to add our information for everything. By a guide we can know everything we really wish for. A book is a pair of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This book Painless Research Projects (Painless Series) was filled about science. Spend your spare time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading a book. If you know how big benefit from a book, you can experience enjoy to read a book. In the modern era like right now, many ways to get book which you wanted.
