**Accounting Information Systems (10th Edition)** Marshall B. Romney, Paul J. Steinbart

Thorough and up-to-date, this book supports any of the most popular approaches to AIS: focus on transaction cycles and controls; focus on systems life cycle; focus on databases and data modeling; or focus on computer-based controls, fraud and auditing. The book begins with an overview and conceptual foundations then goes on to discuss control and audit of accounting information systems, accounting information systems applications, and the systems development process. For CPAs and corporate accountants.
