Trained in science and as a teacher, H. G. Wells (1866–1946) harbored a passionate concern for political issues. Wells's interests are reflected in his pioneering works of science fiction, which involve time travel, space exploration, alien invasion, and experiments gone awry. A century later, his tales of obsession, revelation, and discovery remain compellingly readable and relevant.

This anthology offers readers complete and unabridged versions of Wells's most influential novels: *The War of the Worlds*, *The Time Machine*, *The Island of Dr. Moreau*, and *The Invisible Man*. In addition, five famous short stories include "The Country of the Blind," "The Purple Pileus," "The Crystal Egg," "The Door in the Wall," and the first tale to address bio-terrorism, "The Stolen Bacillus."
