### **Don't expect to hear this from your doctor!**

In 2012, the author's son Mike was diagnosed with Hodgkin's lymphoma. After three operations, including a colostomy and subsequent chemotherapy, mother and son searched for alternative treatments, but most of what they found was snake oil information—dishonest people trying to sell so-called “miracle cures” to vulnerable patients,” often with fancy sales pitches.

A German university's research article about cannabis cancer treatment changed Mike's life. After five months of cannabis therapy doctors confirmed that Mike was cancer free.

Not being satisfied with dispensary marijuana, Mike developed his own strains, concentrating mostly on high CBD plus THC combinations. He now has generated dozens of amazingly powerful SHAROK cannabis strains for cancer treatment, but also for other diseases like epilepsy, Tourette syndrome, Parkinson's disease, MS, chronic pain management, sleep disorders, chemotherapy side effects, PTSD, etc.

For three years now, mother and son have worked in cancer support groups, sharing Mike's cannabis products with fellow patients. Patients' testimonials speak of their happiness and relief about their miraculous cannabis healings.

All proceeds from this book go toward their cancer support efforts.
