Modern Materials and Manufacturing Processes (2nd Edition)

John Neely, R. Gregg Bruce

Modern Materials and Manufacturing Processes (2nd Edition) John Neely, R. Gregg Bruce

Appropriate for introductory undergraduate engineering technology courses in Materials and Manufacturing processes, including Material Science and Metallurgy. This text introduces the current state-of-the-art technology in materials and manufacturing processes with an emphasis on the rapidly growing technologies in the plastics and aerospace industries. It takes a unique approach by presenting specific materials and manufacturing processes, then progressing into a discussion of the ways in which these materials and processes are integrated into today's functioning manufacturing industry. This text was formerly Neely-Modern Materials and Manufacturing Processes.
