The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3) Daniel Gorenstein, Richard Lyons, Ronald Solomon

This book offers a single source of basic facts about the structure of the finite simple groups with emphasis on a detailed description of their local subgroup structures, coverings and automorphisms. The method is by examination of the specific groups, rather than by the development of an abstract theory of simple groups. While the purpose of the book is to provide the background for the proof of the classification of the finite simple groups--dictating the choice of topics--the subject matter is covered in such depth and detail that the book should be of interest to anyone seeking information about the structure of the finite simple groups. This volume offers a wealth of basic facts and computations. Much of the material is not readily available from any other source. In particular, the book contains the statements and proofs of the fundamental Borel-Tits Theorem and Curtis-Tits Theorem. It also contains complete information about the centralizers of semisimple involutions in groups of Lie type, as well as many other local subgroups.

From reader reviews:

Paul Hinojosa:

Now a day folks who Living in the era wherever everything reachable by connect with the internet and the resources inside can be true or not call for people to be aware of each details they get. How people have to be smart in receiving any information nowadays? Of course the correct answer is reading a book. Examining a book can help men and women out of this uncertainty Information specially this The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3) book as this book offers you rich details and knowledge. Of course the information in this book hundred percent guarantees there is no doubt in it you probably know this.

Noah Giles:

Do you have something that you prefer such as book? The publication lovers usually prefer to select book like comic, small story and the biggest one is novel. Now, why not attempting The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3) that give your enjoyment preference will be satisfied by reading this book. Reading behavior all over the world can be said as the means for people to know world a great deal better then how they react towards the world. It can't be mentioned constantly that reading routine only for the geeky individual but for all of you who wants to end up being success person. So , for every you who want to start studying as your good habit, you may pick The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3) become your starter.

Luis Herrick:

As we know that book is very important thing to add our information for everything. By a reserve we can know everything we really wish for. A book is a list of written, printed, illustrated or maybe blank sheet. Every year ended up being exactly added. This guide The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3) was filled with regards to science. Spend your time to add your knowledge about your research competence. Some people has several feel when they reading any book. If you know how big benefit of a book, you can really feel enjoy to read a e-book. In the modern era like today, many ways to get book which you wanted.

Robert McKay:

Reading a book make you to get more knowledge from that. You can take knowledge and information from the book. Book is created or printed or illustrated from each source which filled update of news. In this modern era like at this point, many ways to get information are available for you actually. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Ready to spend your spare time to open your book? Or just searching for the The Classification of the Finite Simple Groups, Number 3 (Mathematical Surveys and Monographs) (No. 3)
