## **Why is the Sky Blue? (Plus What is Gravity , What Makes a Rainbow and More! Fun Kids Science Book that Rhymes!)** Garrett Graham

Why is the Sky Blue is a fun kids science book that answers the tough science questions that kids want to know but most adults can't answer. The book is written in a fun, rhyming style that helps simplify scientific concepts and makes science fun.

The book answers the following questions. Do YOU know the answers?

Why is the sky blue?  
Why do boats float?  
Why do we see the moon during the day?  
Why is water wet?  
How is electricity made?  
What is gravity?  
How do airplanes stay up?  
Where do bees go in the winter?  
What makes a rainbow?  
Why is the ocean salty?  
What makes popcorn pop?

This book provides all of the answers in fun, easy verses that make the science behind the answers easy to understand and memorable.

A sample of the first couple of verses for the question Why is the Sky Blue:

Have you ever wondered why the sky is blue  
and not red or green or another hue?

The reason it's blue is pretty cool  
And I bet you will think it is too

A lot of people think sunlight is white  
But it's really made up of all different colors of light

Light travels from the sun in waves  
Some are long and some are short  
But they all come to earth from the sun  
each and every sort

.....

Ages: 7+
