Mastering Modern Psychological Testing: Theory & Methods Cecil R. Reynolds, Ronald B. Livingston

Testing, Measurement, Assessment

Mastering Modern Psychological Testing: Theory & Methods presents quality written research in a thorough and comprehensive manner that allows students to master the material.

This text provides a comprehensive introduction to psychological assessment and covers areas not typically addressed in existing test and measurements texts such as neuropsychological assessment and the use of tests in forensics settings.

“Mastering Modern Psychological Testing” addresses special topics in psychological testing and includes special material on test development written by a leading test developer as well as relevant examples. The book is designed for undergraduate courses in Psychological Testing / Assessment / Testing Theory & Methods.

Learning Goals

Upon completing this book, readers should be able to:

- Understand what constitutes a psychological test, how tests are developed, how they are best used, and how to evaluate their strengths and weaknesses
- Recognize the development process and how the psychometric properties of tests are constructed so they have the generalized knowledge to always learn about any test
- Engage in areas of testing that represent different approaches to measuring different psychological constructs
- Understand the difficult and demanding area of how tests are applied and interpreted across cultures within the United States
