Conversations from the Womb: Communicating with Your Baby During Pregnancy and Before Conception Penny D Chang

Conversations from the Womb teaches potential mothers and father to communicate with their babies during pregnancy and before conception, whether they are birth parents or waiting for a child through adoption or a surrogate mother. With pre- and perinatal psychologists reporting that the most important time for human development--physical, mental and emotional--is the nine months in the womb, this book teaches parents step-by-step how to support and dialogue with their preborn children. This book actually encourages parents to listen for a response from the child to be born, yielding information about that child's unique character and life mission. For parents trying to conceive, the energy baby waiting to incarnate can offer valuable information. This book also provides encouragement to new mothers grappling with issues and fears related to motherhood, pregnancy, and delivery, and support for mothers who want to dialogue with a baby they have lost. The author believes that, 100 years from now, daily conversations between mothers and their children waiting to be born will be the norm. Here is your chance to create that future.
