Earth Ascending: An Illustrated Treatise on Law Governing Whole Systems Ph.D. José Argüelles

Earth Ascending is a workbook for human and planetary survival. This collection of fifty holonomic maps and comprehensive text is based on a resonant field paradigm which transcends the Newtonian materialistic model. Each individual map is a work of art unto itself, encapsulating a world of insight and consciousness, and bridging the gap to an integrated, galactic worldview. In 1978, Buckminster Fuller said that it would be curtains for humanity if a design revolution were not completed within ten years. It is now ten years later, and as a convincing response to this challenge, *Earth Ascending* postulates a planetary design which envisions the evolving field of Earth in relation to the galactic whole. *Earth Ascending* demands a stretch of consciousness. Our fall from spiritual realization and our degradation of the environment are the result of a blind acceptance of one-dimensionality, and a paralyzed, complacent acceptance of impending doom. Only a rebirth into the numinous world of multidimensional interface will give us the vision to create a new future. *Earth Ascending* offers this vision.
