Lock And Load

Sometimes it's about tactics. Sometimes it's about personal skill. Sometimes it's about teamwork. And sometimes it's just about having a big enough gun to kill every last enemy in the room with a few squeezes of the trigger. There are a lot of options for mayhem. Why choose just one?

A Character Book for World of Darkness

- o An array of artifact weapons, both blessed and cursed, where each can be used as the focus of an entire story. These weapons are both blessed and cursed
- o A new look at Fighting Styles in the World of Darkness: Old styles are reexamined, and several new styles are introduced, each with new rules, histories, and characters to go along with them.
- o Rules for future weapons, the high-tech, bleeding-edge armament that characters might bring to bear against the horrors of the World of Darkness.
- o A whole chapter devoted to hacking apart the combat mechanics of the Storytelling System and rebuilding them so they suit the needs of your game. Gritty combat? Blood-soaked cinematics? Monster-specific rules tweaks? All that, and more.
