*Gary L. Miessler, Paul J. Fischer, Donald A. Tarr*

**Inorganic Chemistry (5th Edition)** Gary L. Miessler, Paul J. Fischer, Donald A. Tarr

With its updates to quickly changing content areas, a strengthened visual presentation and the addition of new co-author Paul Fischer, the new edition of this highly readable text is more educational and valuable than ever. **Inorganic Chemistry, 5/e** delivers the essentials of Inorganic Chemistry at just the right level for today's classroom — neither too high (for novice readers) nor too low (for advanced readers). Strong coverage of atomic theory and an emphasis on physical chemistry provide a firm understanding of the theoretical basis of inorganic chemistry, while a reorganized presentation of molecular orbital and group theory highlights key principles more clearly.
