## **Super Golfonomics** Stephen Shmanske

*Super Golfonomics* continues along the path of Professor Shmanske's pathbreaking *Golfonomics*. It uses economic and statistical analysis of the sport of golf for three main purposes, (1) For the enjoyment of golfers and fans of professional golf, (2) to teach a little economics and show how it can be used to analyze the game of golf, and (3) to use golf statistics and golf course statistics to comment on social, political, and economic issues like gender discrimination, inefficient pricing and public finance. Professor Shmanske pioneered the field of golf economics with his early writings in *Golfonomics*. Now, *Super Golfonomics* presents his more recent scholarship in the field in a form accessible to an intelligent, general readership.

Readership: Researchers and students who are interested in applying economics principles to the game of Golf.
