Speech for the stage Evangeline Machlin

Dr. Machlin here sets down the essence of her almost unrivaled experience in teaching speech. At the beginning and end of this book are warm-up routines, like setting-up exercises, to bring the voice to its best functioning level, but the training starts - as does the child's - with listening. After showing how to re-educate the actor's voice projection, that natural skill so often thoroughly suppressed in our upbringing, Dr. Machlin describes acoustics and the way the body functions to produce hearing and speech. She discusses helpful equipment and then proceeds, always with exercises which can be done under the direction of a teacher or alone, to deal with such important elements as relaxation, phonetics, articulation, resonance, pitch, rate of speech and stress. There are chapters on such specialized problems as speech in Shakespeare and the use of dialects, on reading aloud, sight reading, auditioning and actual performance.
