Tragedy and Hope - A History of the World in Our Time *FIRST PRINTING* Carroll Quigley
New Impressive History of Western Civilization "This year the Twentieth Century fulfills the term of its "middle age," and to most of us who have known no other century, that is a rather frightening thought. Happily, we are seldom called upon to recognize passing time in either the course of our own lives or that of modern civilization. An army of persuaders promises eternal youth, and historians piously intone the platitudes of the past in order that we may avoid the realities of the present. That is tragic. Yet there is hope, as Georgetown University Professor Carroll Quigley sagely observes, in the fact that all over the world men are asking the question, "Where are we going?" We must first know from whence we came, and to trace that path Mr. Quigley has written a history which is great in scope and great in size, as befits both its tragic theme of human ignorance and error and its hope that men may, in future, triumph over the troubles of our time... "Tragedy and Hope" will excite some hot denials and rebuttals, for Mr. Quigley bluntly states some unpleasant truths about ourselves, and he persists in finding human causes for the events of human history. He slaughters sacred cows, and his book will raise howls of protest from many corners of our fat and happy (for which read rich and righteous) land. These will be a measure of the author's perspicacity and the validity of his argument. If history is read in the later Twentieth Century, this book will stand as a beacon illuminating the past and pointing the way toward a better future." Robert R. Rea.
